In-Room Safes

Safemark is the dominant provider of electronic safes to the global hospitality industry and the approved supplier of leading hotel brands and management companies. With nearly 2 million installations and the widest selection of safes, Safemark has engineered a complete line of safes to balance the unique needs of designers, operators and hotel guests. Installations range from luxury to economy properties with models crafted to accommodate case goods, walls, closets, and more.

Why Safes

Safety and security are a top priority for travelers. The competitive advantage of having in-room safes demonstrates reasonable care to guests, minimizes in-room theft, and removes suspicion from hotel staff.

Guest Benefits

- ▣ 24/7 access to valuables in the privacy of the guest room
- ▣ Large enough to accommodate oversized laptops
- ▣ No waiting in line to access safe deposit box
- ▣ Guests choose private code with no keys or cards to carry
- ▣ Contents are covered by Safemark's exclusive \$10,000 warranty against forced entry†

Provide guests with **peace of mind** and **freedom** to explore knowing their valuables are secured in a Safemark safe.

Support

Our certified technicians and global partners are available at all hours of the day to ensure hotels get the most from their investment. Utilizing modular components, your engineering staff will have quick access to spare parts for on the-spot repairs. Safemark's safes are not over-engineered and require little maintenance.

Quality

We manufacture our safes & maintain complete control over product integrity. Why gamble when Safemark guarantees spare parts for the life of each safe and performs routine quality checks throughout the manufacturing process. Be confident of securing your guest's valuables today and for many years to come.

Warranty

As an added peace of mind, Safemark's safes include up to a five-year manufacturer's warranty and an exclusive \$10,000 limited warranty* against forced entry. These warranties provide financial reassurance and speak to Safemark's commitment to deliver quality products.

Trust The Experts

Our durable electronic safes protect your guest's valuables and your property's reputation. Safemark's professional training and installation team ensures success - enabling you to focus on other tasks.

Training

We offer a number of training options, including onsite and remote, with programs tailored to relevant departments. Administrative functions and detailed review of our comprehensive audit trail will be shared with those appointed by management. Preventative maintenance services are also covered to ensure functionality.

Logistics

Unless you're a new construction property, deploying guest room safes takes a great deal of facilitation. Safemark installers handle the entire process from unloading the truck to final trash removal. We have installation down to a science allowing your property to operate with little guest interruption.

Installation

Safemark employs a full-time installation team to assist properties with implementing this important guest amenity. Licensed, insured, and bonded, our team will ensure each safe is properly attached with the correct hardware. They can work independently or side-by-side with your staff, ensuring a seamless installation.

Dependable Security

High Security Key Override*

Optional High Security Key Override System

Hotels depend on reliable, emergency access to their safes and Safemark's industry-leading override systems deliver confidence. Concealed behind a plate, the cylinders are customized to each property with a unique pinning code. Unlike skeleton keys, the high security keys cannot be easily copied and additional keys are only available from the manufacturer with proper authority. The lock is virtually pick proof and cannot be bumped.

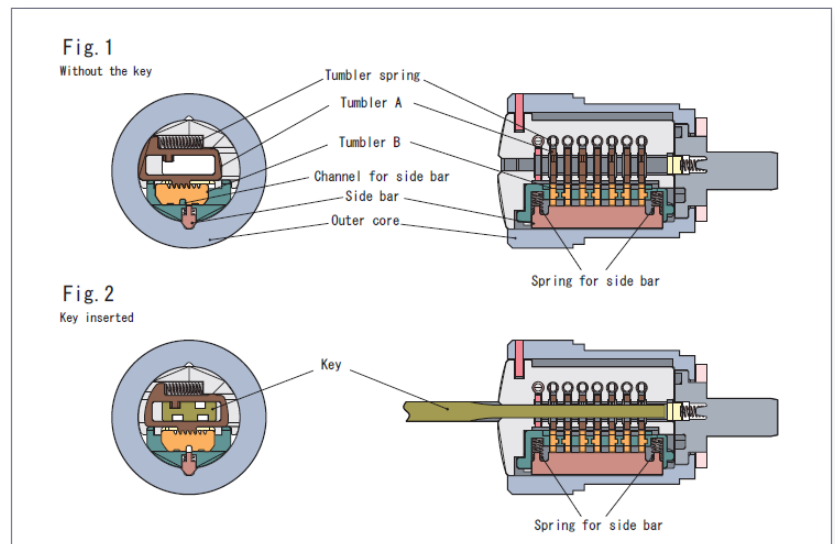

LS7 Cylinder from MIWA

High security cam lock with special key change mechanism has superior operational performance & anti-picking due to sidebar technology. A cost effective approach, cylinders can be reprogrammed up to 10,000 times.

Patented LS7 Features

- ▣ Superior operational performance and anti-picking due to the use of sidebar technology.
- ▣ Industry exclusive key codes can be reprogrammed on the fly with a simple turn of the change key. A new user key then reprograms the lock.
- ▣ Easy operation of keys with almost no binding on insertion and removal, thus reducing key wear and extending product life.
- ▣ When changing the key code on the lock, the tail and cam remain in the locked position, thus maintaining security and improving efficiency.
- ▣ Locks are shipped with an "off the floor" code for lockable functionality during installation and are ready for immediate code change.

*The High Security Override System may vary based on safe model.

Emergency Handheld Override

Emergency Handheld Override (EHO)

Safemark's EHO provides added security with password protected access via easy-to-use Windows® compatible software. This comprehensive audit trail saves both time and money while reducing fraudulent liability claims.

EHO Features

- Windows® Compatible Software
- Multi-Level Password Security
- PC/Network Backup Capabilities
- Industrial-Strength
- Battery Indicator
- LED Display
- Property Customization for Length of Countdown and # of Entries Before Activation

240 Event Audit Trail

The Safemark 240-event audit trail is the most comprehensive in the industry - capturing the full identity, time, date and method used to open/close each safe.

Audit retains the following information:

- Time/Date of Each Safe Locking/Opening
- Full Identity (Full Name) of Authorized Staff Members Who Have Opened a Locked Safe
- Time/Date of Countdowns
- Time/Date of Fail-Safe Key Openings
- Time/Date of Battery Replacement (When Fully Depleted)

Experience Counts

Comprised of industry veterans, Safemark's team understands the importance of timely service. We maintain commanding market share in the United States with extensive international coverage through regional offices and trusted distributor partners. We're available to collaborate with your team and design professionals to ensure the perfect fit without sacrificing security.

The Safemark Difference:

- ▣ Our sales, production and service team brings over 350 collective years of experience in hotel safes
- ▣ Our safes are installed in over 10,000 hotels worldwide
- ▣ We have long standing relationships and vendor contracts with every US hotel Brand and many internationally
- ▣ Our product is backed with the longest manufacturer's warranty and the ONLY \$10,000 warranty against forced entry in the industry
- ▣ We bring peace of mind and security to over 50 million guests per year
- ▣ We have pioneered numerous feature and design innovations including lighted keypad and the most sophisticated audit/override system in the industry
- ▣ We deliver unsurpassed service and always do what we say we will do

SAFEMARK SYSTEMS™, BEST LOCKERS, AND SCOOTERBUG™ ARE NOW

SAFEMARK™

Our Journey

Safemark has brought the convenience of security and guest mobility to the hospitality, entertainment and leisure industries for over 35 years. Originating with Safemark Systems in 1983, Safemark has proven to be an industry leader in guest room security solutions. And to expand that legacy Safemark burgeoned its portfolio to include locker and guest mobility, with companies Best Lockers and ScooterBug.

Through this convergence, Safemark now offers a collective security and mobility option that creates a remarkable guest experience. As the trusted business partner for the world's most recognized brands, Safemark's experienced team delivers the highest level of service, while generating shared revenue and cash flow.
