

KILBURN III

LEGENDARY SOUND, INSIDE & OUT

WIRELESS SPEAKER WITH 50+ HOURS OF PORTABLE PLAYTIME

The Kilburn III stands as the definitive heavyweight of portable audio, engineered for those who demand the raw power of a stage stack in a frame built specifically for the road. At its core is Marshall's signature sound, now evolved with True Stereophonic 360° technology to eliminate dead zones and create a massive, immersive soundstage that remains detailed whether you are standing directly in front of it or off to the side. This isn't just about raw volume; it is about uncompromising precision. With Dynamic Loudness, the speaker automatically adjusts its tonal balance to ensure highs are crisp and lows remain punchy at every decibel level, preventing distortion even when pushed to its limits. For the long haul, it delivers an industry-leading 50+ hours of cordless playtime, and its integrated power bank functionality ensures your playback device stays charged as long as the music does.

Ruggedness is woven into its DNA, featuring an IP54-rated construction that shields the internal components from dust and water splashes, making it as capable in the dirt as it is on a bookshelf. The interface remains unapologetically tactile, centered around the iconic knobs for custom-tuned bass, treble, and volume control. A multi-directional media jog and a programmable M-button provide instant, physical command over your library and presets without needing to reach for your phone. Backed by future-proof Bluetooth 5.3 and a classic 3.5 mm AUX input, the Kilburn III bridges the gap between heritage design and modern technical dominance. This is high-fidelity performance, untethered and uncompromising, designed to be the loudest and most reliable companion on any stage you choose to set. It doesn't just play music; it commands the space with a presence that only a Marshall can provide.

TRUE STEREOPHONIC

360° sound finds you wherever you're standing thanks to a stereo arrangement with no blind spot.

50+ HOURS OF PLAYTIME

With 50+ hours of portable playtime, your playlist will probably run out before the battery.

DUST & WATER-RESISTANT

Kilburn III's IP54 dust and water-resistant design makes it ready to deal with a splash of water or a bit of dirt.

DYNAMIC LOUDNESS

Kilburn III has been designed so that the bass, mids, and treble adjust perfectly no matter the volume.

TACTILE CONTROLS

Customize your bass and treble, power on and off, play, pause, skip tracks, and control presets with intuitive controls.

CHARGING BANK

Power up your playlists and use Kilburn III to charge your phone whenever it needs a boost.
