

# STOCKWELL II

## THE COMPACT POWERHOUSE

### PORTABLE BLUETOOTH SPEAKER WITH 20+ HOURS OF PLAYTIME

The Stockwell II is the compact powerhouse of the Marshall portable lineup, built for those who live life on the move but refuse to leave a massive soundstage behind. Despite its small footprint, it utilizes True Stereophonic technology to deliver a multi-directional 360° audio experience that ensures every listener is fully immersed in the music regardless of where they stand. This pint-sized performer is engineered to produce a sound that is as expansive as it is articulate, separating the spatial content of your tracks to project audio in every direction. With over 20 hours of portable playtime on a single charge and a visual battery indicator to keep you informed, it is built to keep the soundtrack going from sunrise to sunset. This is the ultimate travel companion - a speaker that fits comfortably in your hand while packing the punch and presence of a much larger cabinet. It is a testament to the fact that you don't need a massive stack to command a room, offering a weight-to-performance ratio that is virtually unmatched in its class.

Constructed for the rigors of the road, the Stockwell II features a rugged silicone exterior and a solid metal grille that mimics the iconic look of a vintage microphone, making it as durable as it is aesthetic. Its IPX4 water-resistant rating means it can handle splashes from any direction, providing peace of mind whether you're poolside or caught in a sudden downpour. Interaction remains purely tactile, centered around the signature brass knobs for volume, bass, and treble that allow for precise, custom-tuned output on the fly. It is equipped with Bluetooth 5.0 technology for seamless wireless play and multi-host functionality, allowing you and a friend to easily take turns commanding the playlist. When time is short, a 20-minute quick charge provides 6 hours of portable playtime, ensuring you're never without your music for long. This is high-quality sound shrunk down for the explorer, delivering the legendary Marshall signature sound in a frame that goes anywhere.

#### TRUE STEREOPHONIC

Utilizing True Stereophonic, Stockwell II provides a multi-directional experience that will immerse you in your music.

#### 20+ HOURS OF PLAYTIME

Stockwell II has 20+ hours of playtime and quick charging capabilities so you can pick up and leave at a moment's notice.

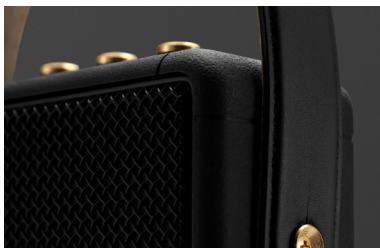

#### WATER-RESISTANT (IPX4)

Stockwell II has an IPX4 water-resistance rating, so it's able to withstand splashes of water when the weather starts to turn.

#### MARSHALL SIGNATURE SOUND

Stockwell II has three class D amplifiers to power its subwoofer, front and rear facing tweeters, for a sound that's brilliantly powerful and clear.

#### ICONIC & RUGGED DESIGN

Echoing the legacy of rock 'n' roll, Stockwell II has a solid metal grille that pays homage to the steel mesh grille found on many microphones.

#### CARRYING STRAP

Featuring a guitar-inspired carrying strap, Stockwell II is the perfect music companion to take with you.
